REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The applicants' arguments, presented 10/6/2008, have been found persuasive.

Further, the prior art does teach systems and methods for determining the processing capacity of a device, and altering operation based upon the available processing capacity. The prior art further teaches destroying only a portion of content in order to nullify the entirety of the content. The prior also teaches a reproduction unit which stores received content, reproduces the content, marking the reproduced content as needing to be nullified, and destroying the content marked as needing to be nullified. However, the prior art does not teach or reasonably suggest a system or method which while reproducing the stored content, nullifies data marked as needing to be nullified by destroying only a part of the content needed to reproduce the remaining parts of the content, and further judges the processing capacity of the computing device, while reproducing the target data, to determine whether there is sufficient processing capacity to destroy all remaining parts needing to be nullified and to destroy all of the remaining parts when it is judged that there is sufficient processing capacity to destroy all of the remaining parts, in the particular combination of limitations as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

Claims 1,2,4,7-14,17,18,22-26,28-31,35,36,38-41 and 44 are allowed.
